RELEVANT EXPERIENCE

Junior Web Developer · Positive Digits Apr 2023 - Sep 2024

- Designed and executed a multi-language, multi domain lead generation site as part of a two person team using Sulu, Tailwind CSS, and Stimulus JS.
- Contributed to the ongoing maintenance of a web shop with 100,000 products, working alongside a mentor to keep product information accurate and the site running efficiently.
- Created clean and efficient front-end designs for clients and in house websites.

IT Support · Cape Town Engineering Jan 2017 - Mar 2020

- Provided technical support and troubleshooted a variety of hardware and software issues.
- Conducted routine maintenance and system updates of the office computers.

EDUCATION

BCIS in Game Design & Development
Vega School Cape Town
Jan 2017- Dec 2019

- Learned to develop games using the Unity engine and C#.
- Designed and modeled 3D game assets using Blender.
- Represented Vega at the Cape Town Electronic Games Exhibition in 2017 and 2018.
